PROFESSIONAL SUMMARY

Technical Product Lead / Technical Product Manager / Founding Product Builder with end-to-end ownership across product strategy, discovery, roadmapping, UX systems, and technical delivery. Built and launched a live e-commerce marketplace from 0 → 1, aligning business goals, monetization, and marketplace operations with reliable execution. Fluent working with engineering on architecture decisions, tradeoffs, and delivery workflows while maintaining high UX and product quality. Strong operator in startup ambiguity—drives prioritization, cross-functional alignment, and shipping cadence from concept to production. Comfortable across product analytics, experimentation, go-to-market decision-making, and AI-accelerated product delivery.

CORE COMPETENCIES

- Technical Product Management • Product Strategy • Product Ownership • Product Leadership

- Product Roadmapping • Backlog Prioritization • Requirements Gathering • User Story Definition
 - Product Discovery • UX Architecture • Information Architecture • Prototyping • Usability Testing
 - Agile Product Delivery • Sprint Planning • Delivery Execution • Release Management
 - Cross-functional Leadership • Stakeholder Management • Technical Stakeholder Collaboration
 - Marketplace Product Systems • Monetization Systems • Growth Product Thinking • Product Optimization
 - Product Analytics (GA4/GTM) • Experimentation • KPI Definition • Instrumentation Planning
 - Technical Execution Oversight • System Design Collaboration • API/Integration Planning
 - Product Operations • Process Design • Startup Execution • 0 → 1 Product Development
 - AI-Augmented Product Delivery • AI Workflow Logic • Voice/Conversational UX (project)
-

PROFESSIONAL EXPERIENCE

Co-Founder / Chief Product & Design Officer (Product Leadership + Technical Execution) — Shoppergetit

Abuja, Nigeria | Apr 2024 – Present

- Owned product strategy, product ownership, and end-to-end delivery for a live e-commerce marketplace—driving roadmap prioritization from customer/vendor needs to shipped releases.
- Led cross-functional execution across Shopper, Vendor, and Admin experiences; translated product requirements into implementable scopes, milestones, and release plans.
- Partnered closely with engineering on technical execution oversight: architecture decisions, environment management, CI/CD, staging strategy, and production deployments (Vercel/Render).

- Designed and governed marketplace system flows including vendor onboarding, product listing, checkout, dispute handling, request sourcing workflows, and operational workflows required for marketplace reliability.
- Built monetization and commerce mechanics (pricing/checkout optimization, settlement and invoicing flows), balancing user experience, business constraints, and operational feasibility.
- Implemented analytics instrumentation (GA4/GTM) to enable product performance tracking, funnel visibility, and iteration based on measurable signals.
- Raised ₦10M in early capital and supported go-to-market decisions across vendor onboarding and launch execution.
- Established UX systems and component standards to reduce rework and improve delivery speed while maintaining consistent product quality.

Tech context: Next.js, React, Node.js, MongoDB, Redis, WebSockets, Vercel, Render, GA4, GTM

UX Design Mentor (Product Thinking + Portfolio Strategy) — Springboard

Remote | Dec 2020 – Present

- Delivered 900+ 1:1 mentorship sessions for global UX/UI learners; coached product thinking, research interpretation, and execution planning from problem framing to portfolio-ready outcomes.
- Strengthened learner product ownership skills: requirements clarification, tradeoff reasoning, narrative building, and decision documentation.
- Supported design career transitions by improving portfolio strategy, storytelling, and interview readiness with measurable progress and consistent accountability.

Chief Product Officer / Head of Design — Pendulum HQ LTD

Remote, Nigeria | Feb 2022 – Sep 2023

- Led product strategy and delivery execution across education, AI navigation concepts, and innovation platforms; owned roadmap planning, feature prioritization, and release readiness.

- Established delivery workflows and design-ops practices that improved team collaboration and throughput (process, handoff standards, and quality checks).
- Partnered with engineering on technical implementation oversight across React/Node/Firebase stack; maintained product quality through clear acceptance criteria and iterative validation.
- Delivered platform capabilities including mentor dashboards, progress tracking, and admin evaluation workflows for an LMS ecosystem.

Tech context: React, Node.js, Firebase

Senior Product / UX Designer — HappilyEver.Co

Remote, India | Aug 2022 – Apr 2023

- Led product experience design for a therapy/health platform, working with product stakeholders to define requirements, flows, and usability priorities.
- Shipped empathetic, accessibility-aware interfaces and improved end-to-end journeys through iterative testing and design system usage.

Product Designer — WeDance (Germany)

Remote, Germany | 2021 – 2022

- Designed social/community product experiences for global event discovery and creator networking; delivered core flows and reusable UI patterns that supported product consistency.

Product / UX Engineer — eHealth4Everyone

Abuja, Nigeria | 2020 – 2021

- Delivered UX + front-end execution for a Health Innovation Management System with WHO Botswana collaboration; improved usability via flow optimization and structured UI architecture.
- Collaborated across stakeholders to translate program requirements into usable product experiences and stable delivery.

SELECTED PRODUCTS / PROJECTS

- **Shoppergetit** — Live e-commerce marketplace (0 → 1 build; product strategy, ownership, delivery, monetization, analytics) |

<https://shoppergetit.com>

- **Pam AI** — Voice-first AI traffic/navigation assistant (concept + voice UX + AI workflow logic)
 - **Pendulum School of Innovation (LMS)** — Mentorship + evaluation ecosystem | <https://pendulumschool.com>
 - **WeDance** — Dance community product | <https://wedance.vip>
 - **eHealth4Everyone IMS** — Innovation management platform | <https://ehealth4everyone.com>
-

TECH STACK

- **Product/Design:** Product Strategy, Roadmapping, Discovery, PRDs, User Stories, UX Research, Prototyping, Design Systems, Usability Testing
 - **Front-end:** React, Next.js, React Native (Expo), TypeScript, Tailwind CSS
 - **Back-end/Infra (context + oversight):** Node.js, Express, MongoDB, Redis, Firebase, REST APIs, WebSockets, CI/CD
 - **Analytics/Growth:** Google Analytics 4 (GA4), Google Tag Manager (GTM), SEO, Experimentation
 - **Tools:** Figma, Git, GitHub Actions, Vercel, Render, Docker
-

EDUCATION

B.Eng., Electrical & Electronic Engineering — Federal University of Technology, Minna (2016–2022)

MSc, Human–Computer Interaction (in view, 2024)
